Check out the trailer for the lesbian-themed web series *LIPS*, billed as a “similar feel to *Flight of the Concorde* but with chicks,” from creator and star Flo Vinger.

Two “seasoned” chick rockers refuse to give up their Hollywood dreams of money, fame and an endless supply of... other chicks. With the help of a Manager/Barista who gets them not so glorious gigs, what could possibly go wrong?” the *LIPS* logline reads.

The show’s second season is chock full of guest stars including Elaine Hendrix (*Romy and Michelle’s High School Reunion*), Sheetal Sheth (*I Can’t Think Straight, The World Unseen*), Debra Wilson (*MADtv*), Hana Mae Lee (*Pitch Perfect*) and Christine Lakin (*Step by Step*).
